

Pascal® is a new and pioneering online audit designed to help your organisation gauge levels of pressure and stress like never before.

Building on validated stress management standards, Pascal® is the first audit tool of its kind to include separate work and home results. Your Pascal® Company Report allows you to identify key pressure points, with the flexibility for your organisation to include bespoke questions.

## Why choose Pascal®?

**Fully Managed**  
time saving end to end solution

**Support**  
with integrated referral pathways and 'Take 5' resources library

**Reporting**  
segmented to monitor pressure points and track changes

**Benchmark**  
repeat TWO audits to monitor changes

**6-8 minutes**  
to complete and employees receive a personalised report

**Tailored**  
around your organisation with bespoke questions

**Did you know...** Pascal is the universal unit to quantify internal pressure and stress
